LINDA & RICH

Beginner Sequence

Begin in Closed position

1. Clockwise 1 ½ turn to Side-by-side position with lady on outside: He preps her on 2nd slow by turning his shoulders to his left (right shoulder forward, left shoulder back) & turns her on quick, quick, slow. As she is turning to face line of dance, he catches her left hand with his right, releasing his left. He adjusts slightly to the inside track.
2. Full Counterclockwise turn for lady to Wrap: He preps her on 2nd slow to the right & leads her to turn on quick quick. He catches her right hand with his left when she's finished turning.
3. Counterclockwise 1 ½ turn for lady from Wrap to Closed: He preps her to the right on 2nd slow and leads her (with his left hand) to turn on quick quick slow. As he starts the lead, he brings the hand in front of him a bit and then towards himself and over her head. As her back comes toward him, he places his right hand on her back & follows her around to closed, so that his right hand ends on her shoulder blade in closed position.
